Our Devon

The coast, the farms and the people behind our food

BEER · BRANSCOMBE · AXMOUTH · LYME REGIS · SEATON

Our fish comes from the Jurassic Coast through **Wright Brothers**, landed along this stretch of shore. Our meat is from **Taste of Devon**, the butchers in Seaton, and our eggs from **Brown Egg Farm** in Talaton. Much of our salad, micro herbs and seasonal vegetables are grown on our own **family farm at Whimble** and our **allotment in Beer**, with the rest of our fruit and veg through Westcountry Fruit Sales and Goosemoor.

(v / vg) Vegetarian, with a vegan option available. Not all ingredients are listed, so please tell your server about any allergies or intolerances. Some fish dishes may contain bones. Everything is cooked fresh to order, so thank you for your patience at busier times.
